Hello Jim,

The Tier 1 report is still draft and not releasable, but if you only need the depth data, Ken Israel can send the survey files to you. They are large files, and the original download link has expired, so he will have to send you a new one. Please let me know if you have any trouble.

Rachelle,

Tamara left me a message that if I ask for the water depth surveys done by Sea Engineering for the EPA, you can send them to me. Can I have them?

Jim
